

Canadian Pipeline 101 Course

Piasha Learning Academy is offering its Canadian Pipeline 101 course on April 14, 2020. This course will:

- Familiarize participants with the Canadian Pipeline industry and the phases of pipeline project execution.
- Enhance participants' knowledge, employability and advancement in the pipeline industry.
- Satisfy employers' needs to have employees with fundamental yet comprehensive pipeline knowledge.

This course, taught close to 600 students and presented with slides & videos, is ideal for managers, project managers, project engineers, pipeline engineers, technicians, EITs, surveyors, coordinators, controllers, cost estimators, schedulers, environmentalists, land agents, human resources personnel, supply chain personnel, business analysts, associates, inspectors & construction personnel and people wanting to join our pipeline industry. This course is eligible for 6 APEGA PDUs.

TESTIMONIALS

- ◆ *Something similar should be made mandatory for all new employees – Adam, Procurement*
- ◆ *This course should be given to all new hires. I have been in the pipeline industry for a lot of years and I have learned some valuable knowledge – Stuart, Welding Inspector*
- ◆ *The course was very well delivered. Will recommend other EITs at Enbridge take this course – Timothy, EIT.*
- ◆ *Great course! Knowledgeable instructor, the reference book is a great take away – Tyler, EIT.*
- ◆ *This is the best and most useful course I have done in by far – Sam, Project Controls.*
- ◆ *Hiran was a great instructor, very experienced and knowledgeable. Fun to learn from and know – Estimator.*
- ◆ *Thank you very much Hiran. Branka & I really enjoyed your Pipeline 101 course!! Very, very well done – Charlene.*
